

COPAFS Quarterly Meeting: Update from the NCHS Director

Brian C. Moyer, Ph.D., NCHS Director

June 5, 2020

Toward an NCHS Vision ...

- Data modernization
 - Harness new data sources and techniques
 - Expand the capacity and scope of statistical analysis
 - Connect data across the statistical system
- An NCHS Workforce for the Future
 - Coordinate
 - Collaborate
 - Empower

COVID-19 Impact on NCHS Work

- Household surveys moved to telephone
- The National Health and Nutrition Examination Survey (NHANES), with data collection from Mobile Examination Centers, out of the field until further notice
- Most staff working from home
- Multiple staff assisting with the CDC/federal government response

The COVID-19 Response

NCHS is ...

- Accelerating the availability of our statistics
- Expanding our existing surveys
- Partnering with the federal statistical community

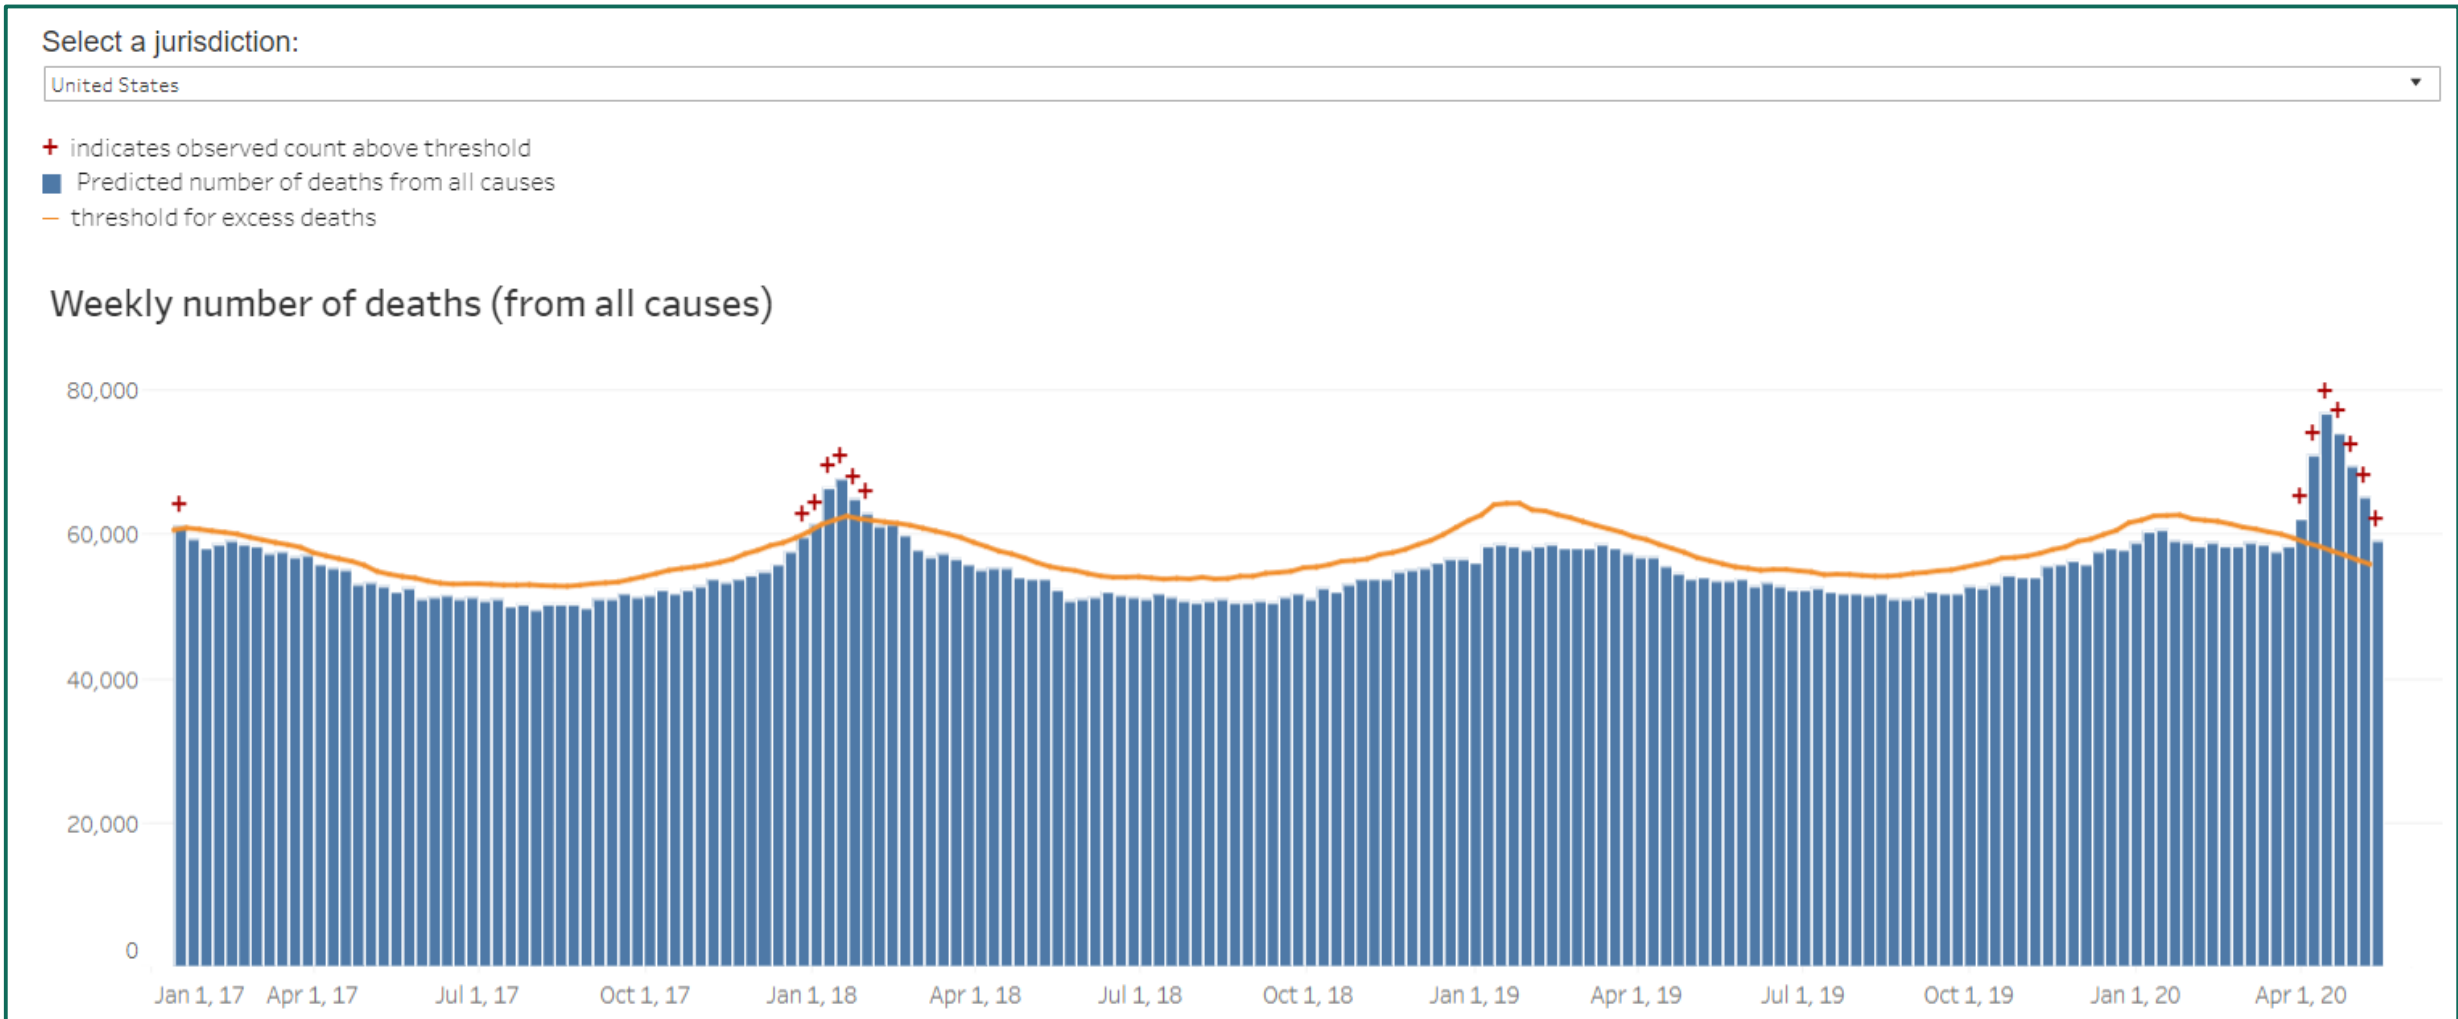

Deaths involving COVID-19 by sex and age group

FY 2020 Budget

*Amount includes funding for administrative and business services through the CDC Working Capital Fund.

"Additional Resources" include reimbursables from other agencies; in FY 2020, this category also includes \$3.5 million in Public Health Data Modernization Funding.

FY 2021 Budget Picture

- FY 2021 funding includes a \$14 million realignment within the CDC Public Health and Scientific Services Account to better reflect NCHS funding
- NCHS budget authority down \$5.4 million in FY 2021— from \$174 million to \$169 million
- COVID-19 supplemental funding ...

COVID-19 Supplemental Funding for CDC

New CDC Funding	Coronavirus Preparedness and Response Supplemental Appropriations Act	The Coronavirus Aid, Relief, and Economic Security (CARES) Act	Paycheck Protection Program and Health Care Enhancement Act
Public Health Data Modernization	--	\$500 million	--
State and Local Response Grants	\$950 million	\$1.5 billion	--
Global Response Fund	\$300 million	\$500 million	--
Infectious Disease Rapid Response Reserve Fund	\$300 million	\$300 million	--
General/Unspecified	\$650 million	\$1.5 billion	\$1.0 billion
Total	\$2.2 billion	\$4.3 billion	\$1.0 billion
	Available through FY 2022	Available through FY 2024	Available until expended
NCHS Allocation	\$2 million	--	--

COVID-19 Data Modernization Funding

- Next generation of vital statistics
- Forecasting COVID-19 spread and impact—modeling, predictive analytics, and integration of data from multiple sources (administrative data, claims data, etc.)
- Expanding data visualization and data approachability
- Defining health outcomes and understanding disease burden

Public Health Data Modernization

- Working in partnership with colleagues at CDC/HHS
- Modernizing how public health data connects to the broader effort of evidence-based policymaking
- Working to improve timeliness and relevancy in data collection, analyses, and dissemination
