

# Adaptability & Modernization

- Federal Statistical System is strong but to become stronger.
- The Statistical and Science Policy Office (US Chief Statistician) supports FSS.
- Statutory framework for modernization (Evidence Act).
- Federal resources: technology, statistics: data science and AI.

# Technology & Innovation

- Evolving needs should be addressed through nimble approaches.
- Data integration as a mindset.
- Big Data and traditional Survey Methodology can co-exist and thrive together.
- Administrative records (Big Data) at Federal agencies.

# Evaluation & Relaunch

- Constant assessment of data capacity/inventory.
- Thinking beyond a particular program/office/agency.
- Interdisciplinary approaches.
- Augmented statistical products.
